

Wren Ashcombe

wren.ashcombe@example.com - (555) 555-0142 - Vell, the Brass Coast

Resourceful and self-motivated recent graduate looking to start a career in clockwork automata and arcane engineering.

Education

Bachelor of Artifice in Clockwork Automata (Geomancy minor)

Collegium Mechanica of Vell, graduated August 2026

- Completed ley-line mapping projects and calibrated scrying lenses on multiple golem platforms.
- Designed and prototyped pneumatic limbs for a stone golem as a senior capstone project.
- Volunteered to set up tools and equipment on the Collegium's dwarven-forged lathe. Self-taught on its operation and trained peers on the machine.

Associate of Runic Computation

Brightwater Academy, graduated May 2020

- Editor for The Inkwell, Brightwater's literary broadsheet
- Completed a winter term exchange program at the Sunspire Observatory (January 2018)
- Member of the Brightwater cross-country running team

Professional Experience

Workshop Assistant (Automata Department) - Collegium Mechanica of Vell

September 2023 - August 2026

- Supervised the Collegium artificers' workshop for day-to-day activities. This included helping students with projects, assisting faculty, instructing on fabrication methods, and general upkeep of the space.
- Enforced safety standards for all workshop equipment, including warded forges and unstable reagents.
- Performed routine maintenance and setup on machines and tools in the workshop (e.g. alchemical kilns, etching tables, clockwork looms).

Shop Hand - The Copper Kettle Emporium

September 2023 - July 2025

- Worked the counter, completed merchandising tasks, and performed routine maintenance and repair on consigned trinkets.
- Built lasting relationships with other small merchants and the guild community at large.

Inventory Clerk - Greymantle Rope & Chain

February 2023 - April 2023

- Tracked inventory, cut chain to length, and prepared materials for assembly. Recorded which suppliers' materials went into each order. Left on good terms when a promised enchanting position failed to materialize.

Warehouse Associate - Stonebridge Trading Company

July 2020 - August 2022

- Stocked shelves, arranged displays, and reconciled inventory discrepancies.

- Served large numbers of customers in short windows, particularly during festival season and the spring floods.
- Operated a cargo golem to unload wagons, move freight around the warehouse, and load goods for customers.

Runic Computation Tutor - Brightwater Academy

September 2019 - February 2020

- Tutored students in runic computation, from basic sigil logic to recursive enchantments, and helped run productive study groups.

Personal Projects

- Built a private message-crystal relay for sharing scrolls, maps, and songs, since expanded to multiple users.
- Designed and cast custom fittings and tools for day-to-day use.
- Created illustrated cards and tokens for tabletop games.
- Informally tutored peers in a variety of runic languages and technical topics.

Working Skills

- Strong runic programming and artifice skillset
- Low-voltage lightning-jar circuits
- Mechanical design and fabrication
- Rapid prototyping
- Hands-on maintenance and repair
- Technical documentation and schematics
- Mathematics for engineering applications
- Frequently self-taught on equipment and spellwork
- Strong verbal and written communication

Programming and Software Skills

- **Runic Languages:** Old Dwarvish, Glyphscript, Elvish Cursive, Common Sigil
- **Design Tools:** Drafting table, brass compass, scale-model casting
- **Automata Control:** Golem command lattices, homunculus rigging, clockwork governors
- **Communication:** Message crystals, sending stones, pigeon post
- **Reference Works:** The Artificer's Compendium, Vell Guild Safety Codex
- **Misc:** Ledgerkeeping, cartography, basic alchemy

Hardware Systems

- Ironclad-7 welding golem
- Collaborative brass assistant (Mark II)
- Three-axis runic engraving table
- Dwarven-forged precision lathe
- Multiple alchemical casting kilns
